

OZONE GENERATOR

Water Sanitation System For Bath, Spa & pool

Product Features

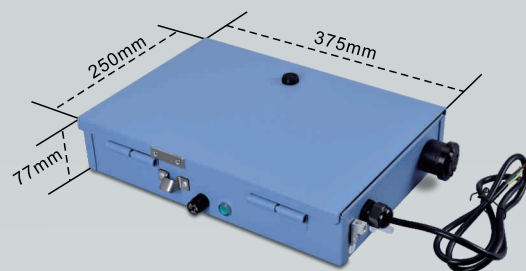

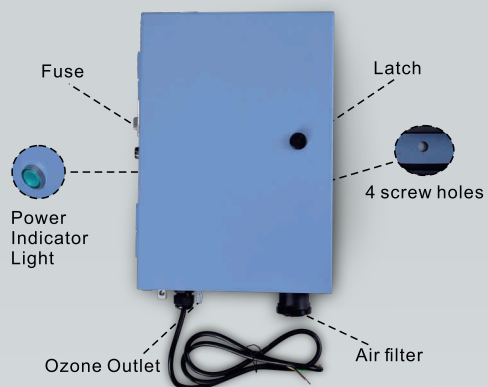

- Engineered Specifically for Spa & Bath Installations
- The OZ Series(OZ-1/OZ-2/OZ-3) produces powerful oxidant.
- Effectively treats waterborne viruses and microbial contaminants through oxidative breakdown.
- Reduces chemical usage while minimizing potential skin/ eyes irritation risks.
- Automatically shuts off at $>85^{\circ}\text{C}$ and resumes when cooled.
- AC 110 ~ 250V 60/50Hz.
- Low power consumption.
- 3 models:250/500/750mg/h.
- Design Patent Certificate:ZL 2024 3 0489 315.1

For SPA & Bath

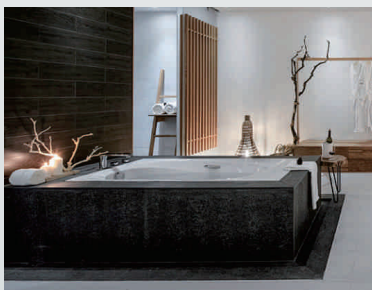

Once properly installed, the Ozone Generator requires no further user operation. It will operate automatically with the Spa System.

Specifications

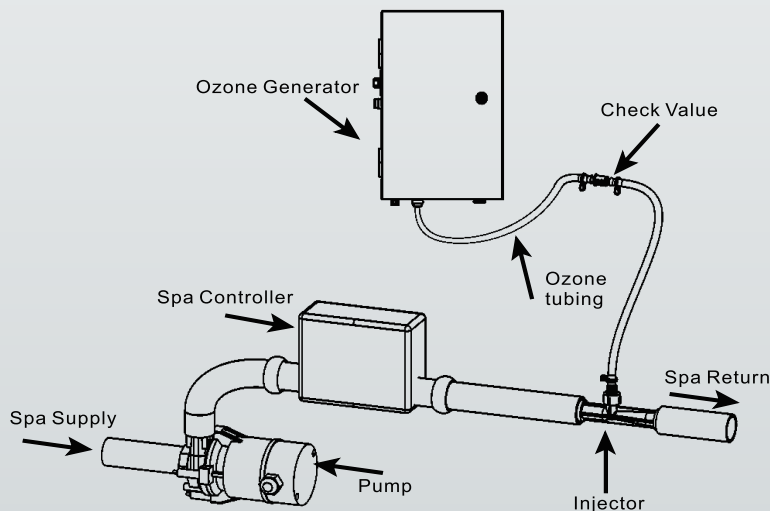

| | OZ-1 | OZ-2 | OZ-3 |
|---------------------|-----------------------------|-----------------|------------------|
| Ozone Level | 250mg/h | 500mg/h | 750mg/h |
| Temperature | 23°C | 23°C | 23°C |
| Humidity | 60% | 60% | 60% |
| Flow Rate | 10-15 CFH | 10-15 CFH | 10-15 CFH |
| Rating | 110-240VAC 60/50Hz | | |
| Input Power | ≤ 20W | | |
| High-voltage output | 1500-2100V/AC 2900-3500V/DC | | |
| Application | ≤ 25k gal pools | ≤ 50k gal pools | ≤ 100k gal pools |

Spa Solutions

- (1) OZ-1: Bathtubs / small areas (250mg/h)
- (2) OZ-2: Pools / Spas (reduces chlorine smell)
- (3) OZ-3: Large Venues (750mg/h fast sterilization)
